Office Directory© for Windows®

Office Directory standard version offers an electronic display of office list in English and Chinese, (extended fields can be added), to meet the requirement of the Hong Kong new Company (Disclosure of Company Name and Liability Status) Regulation (Cap. 622B).

Office Directory© is a Hardware + Software total solution; package included all necessary hardware and software, as well as basic training and after-sales support. We can also provide data conversion and hardware installation with maintenance service, no extra co-ordinate work added to a substantial workload office.

Standard Feature :

- Power on and play - no action required
- Auto recover from power failure
- Timer for auto on / off at preset time
- Auto order
- Auto refresh, detail information pop up, full record maintenance interface

Specially design for Law firm, Accounting firm, business centre, and address has more than six companies registered.

The standard version includes :

- Viewsonic® 22 inches touch screen monitor
- Intel Compute Stick with Windows® 10
- Microsoft® keyboard and mouse
- User Guide
- Onsite software installed
- Onsite administration function training
- Power outlet and fixture installation will be quoted separated
- ** hardware and software may be varied from time to time
